- ✓ Protection
- ✓ Easy installation
- ✓ Stainless steel endurance

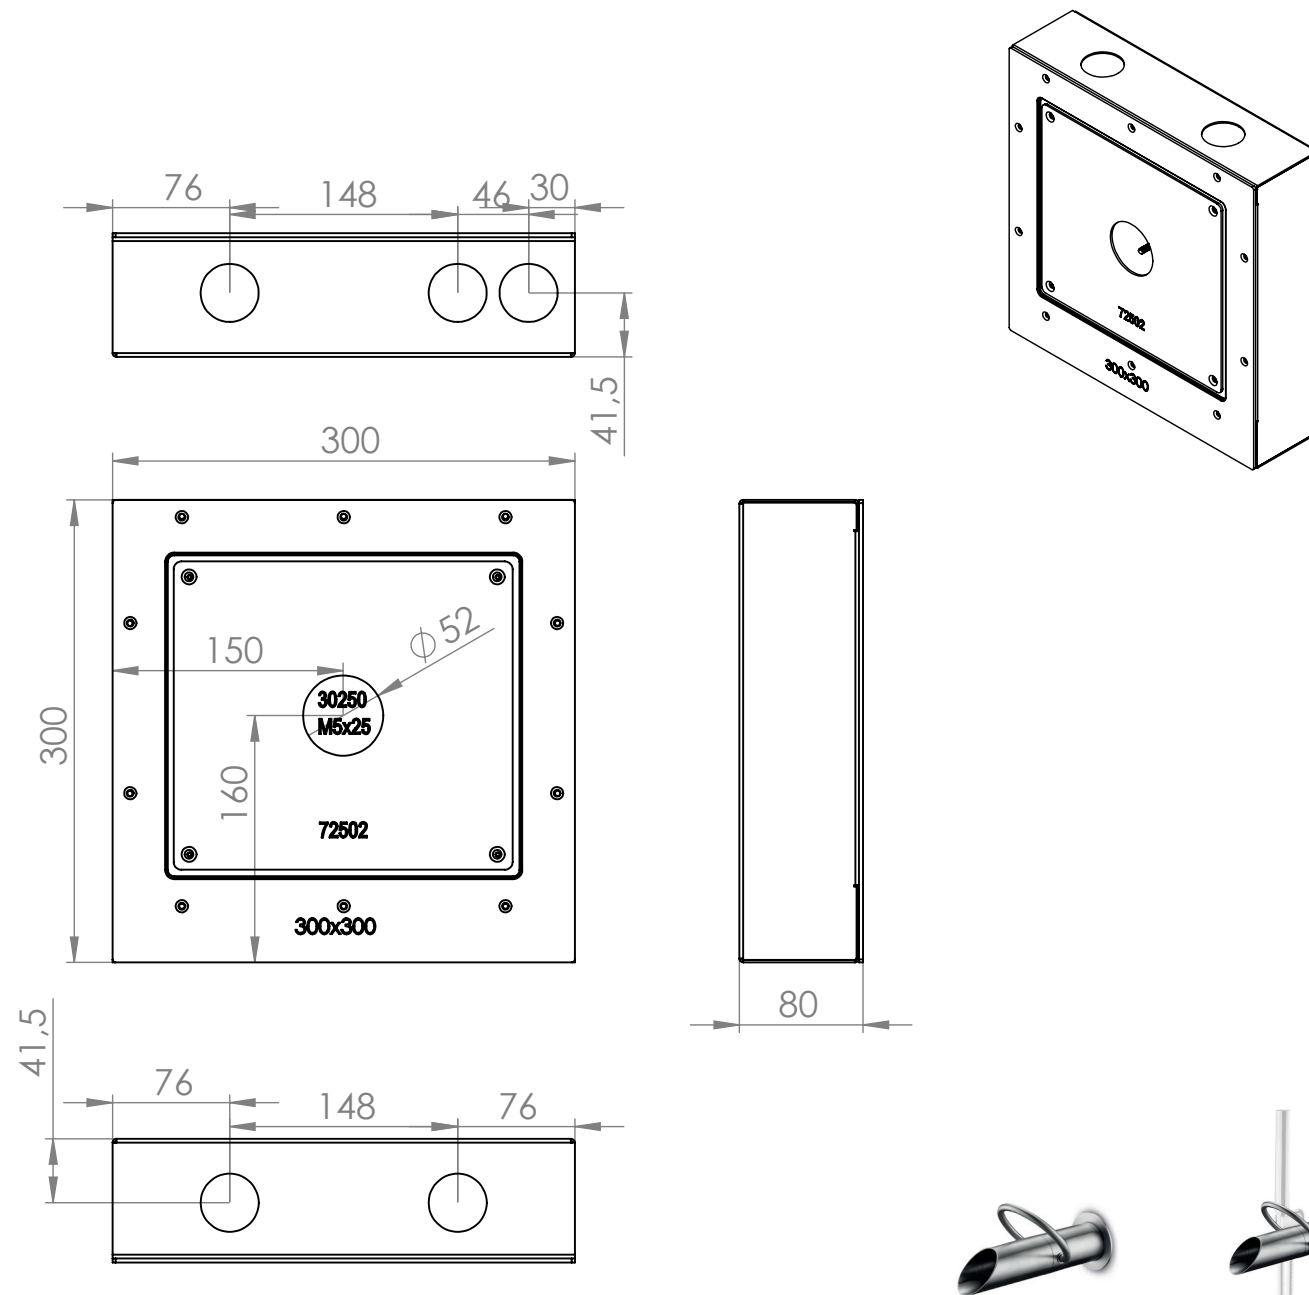

Freedom to create your signature design, for an energizing experience every time you enter. That is what JEE-O stands for. With her freestanding design pieces JEE-O offers you the liberty to create a space that is unique to your choice.

Using leak-proof dry-boxes, will allow you to mount JEE-O tapware in compliance with building regulations anywhere in your floor plan. With the Joramark BOX300 product, all connections are placed within a watertight closed structure. The solution offers absolute safety with a leakage indicator via a PEX protective pipe. BOX300 can be used in new construction and renovation projects, wood-construction or solid walls. The removable front-panel assures easy access in case needed. The Joramark boxes have been in use since 2005 and have been granted RISE Type Approval.

JEE-O we energise you

JEE-O works with carefully selected solid surface materials. Slight variations in the aesthetic appearance of the product including the colour, may occur after exposure to atmospheric influences such as sunlight, pollution or harmful chemicals. This does not affect the product performance in any manner. Situation specific care and maintenance instructions may apply.

For our general cleaning and maintenance recommendations, visit our website www.jee-o.com
