Installation options

The Silentia screen system is a versatile privacy solution that can be installed in any healthcare environment. The adaptability of the system is made possible by different mounting methods, including wall mounts, wa. The preferred mounting method is selected based on the screen, setting, and workflow requirements.

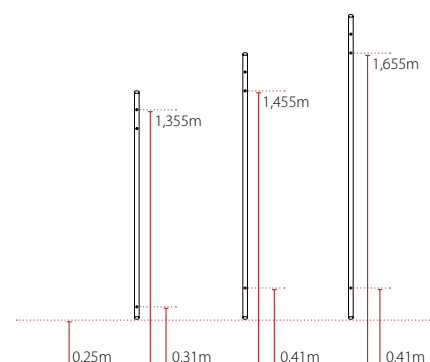

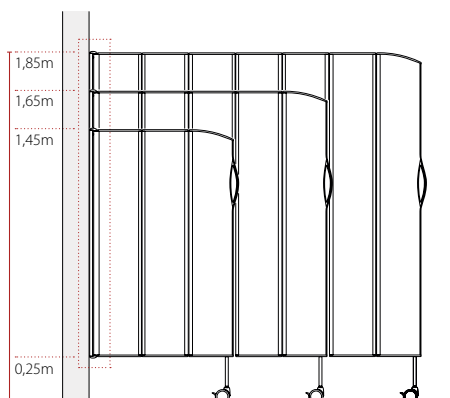

Wall mount directly to wall

For convenient mounting directly to the wall. One wall mount is normally supplied with the screen. Additional wall mounting can be ordered separately.

Material: Profiles: Aluminum; Top & Bottom: Polyamide reinforced with fiberglass

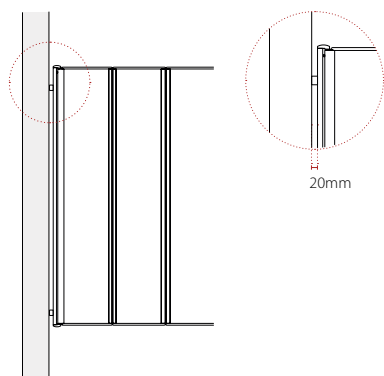

Art.no. 06539, height: 1.45m
Art.no. 06544, height: 1.65m
Art.no. 06540, height: 1.85m

Wall mount + spacers +

Spacer 20mm:

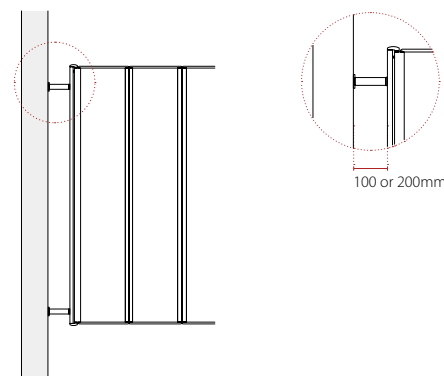

Material: Polyamide

20mm

Spacer 100mm or 200mm:

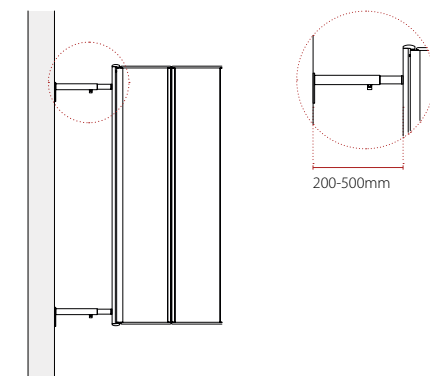

Material: Steel, Aluminium

100 or 200mm

Adjustable spacer:

Material: Steel, Aluminium

200-500mm

Used to position a screen away from the wall, for example, to create space for a molding. Supplied in pairs.

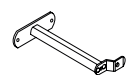

Art. no. 06506

Used to position a screen away from the wall. Supplied in pairs.

Art. no. 06507, 100mm

Art. no. 06508, 200mm

Used to position a screen further away from the wall. Supplied individually.

Art. no. 06509, 200-350mm

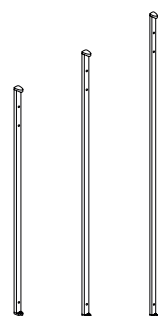

Art. no. 06510, 300-500mm

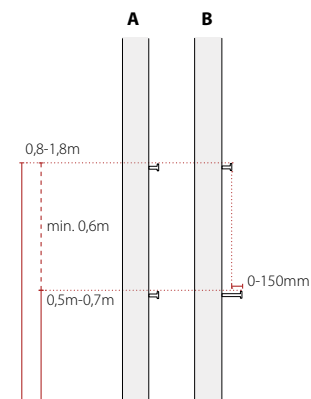

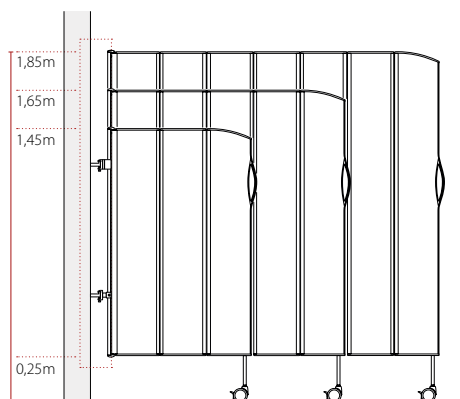

Installation options

Wall mount on medical rail

For mounting to a medical rail. Requires one wall mount together with two clamps.

Art.no. 06539, height: 1.45m
Art.no. 06544, height: 1.65m
Art.no. 06540, height: 1.85m

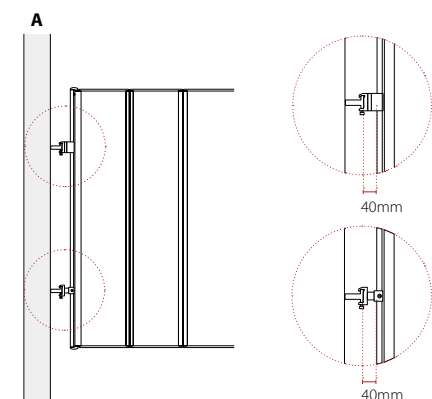

Clamps

Standard + Support Clamp

Material: Aluminium

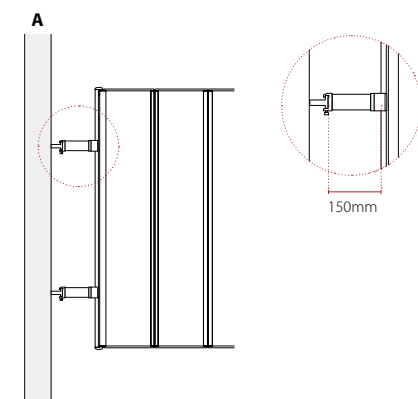

This combination should be used when two wall tracks are mounted in a vertical line.

Clamp with spacer

Material: Aluminium

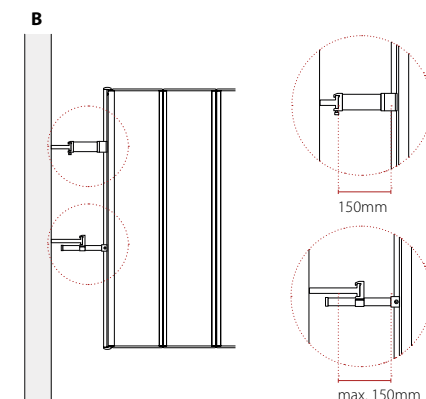

This combination should be used when space is required between a screen and a wall rail, e.g. in dialysis departments where panel access is vital.

Clamp with spacer + adjustable clamp

Material: Aluminium

This combination should be used when two wall rails sit at different distances from the wall.

Standard clamp

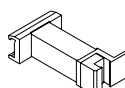

Distance between wall rail and screen: 40 mm.

Art. no. 06502

Clamp with spacer

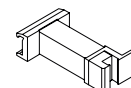

Distance between wall rail and screen: 150 mm.

Art. no. 06535

Clamp with spacer

Distance between wall rail and screen: 150 mm.

Art. no. 06535

Support Clamp

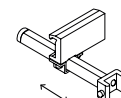

Used with standard clamp where two wall rails are mounted on the wall.

Art. no. 06524

Adjustable clamp

Distance between wall rail and screen: max 150 mm.

Art. no. 06516

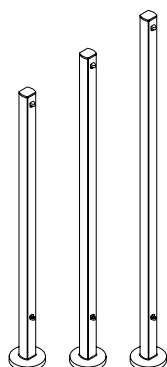

Installation options

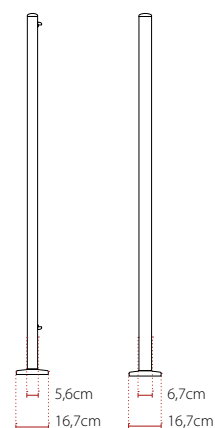

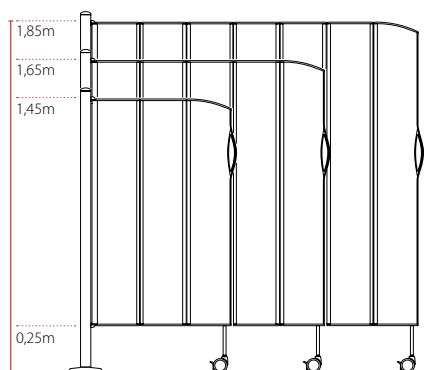

Floor pole

The floor pole can be used to support a wall-mounted screen or as a mounting point for folding screens. The pole is screwed securely to the floor.

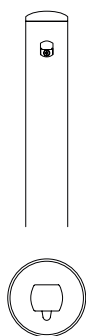

Material: Pole: Aluminium with steel plate and polyamide cover; Connections: Polyamide reinforced with fiberglass.

Art.no. 06561A, height: 1.45m
Art.no. 06562A, height: 1.65m
Art.no. 06563A, height: 1.85m

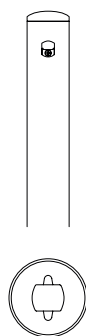

Types of floorpoles

A

1 connector

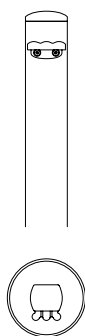

Art.no. 06561A, height: 1.45m
Art.no. 06562A, height: 1.65m
Art.no. 06563A, height: 1.85m

B

2 connector

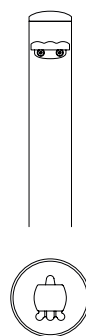

Art.no. 06561B, height: 1.45m
Art.no. 06562B, height: 1.65m
Art.no. 06563B, height: 1.85m

C

3 connector

Art.no. 06561C, height: 1.45m
Art.no. 06562C, height: 1.65m
Art.no. 06563C, height: 1.85m

D

4 connector

Art.no. 06561D, height: 1.45m
Art.no. 06562D, height: 1.65m
Art.no. 06563D, height: 1.85m

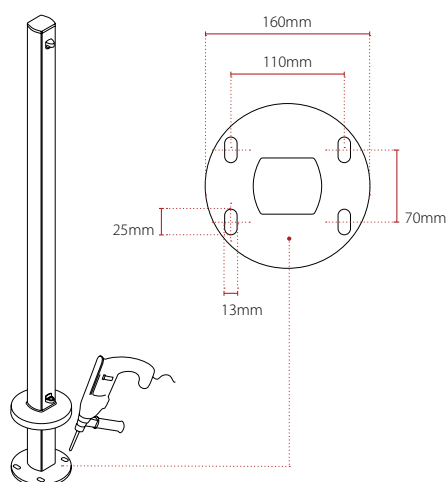

E

6 connector

Art.no. 06561E, height: 1.45m
Art.no. 06562E, height: 1.65m
Art.no. 06563E, height: 1.85m

Floorpole bottom plate

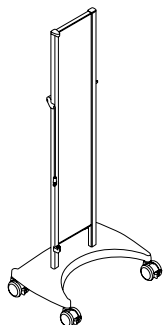

Installation options

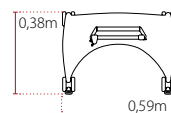

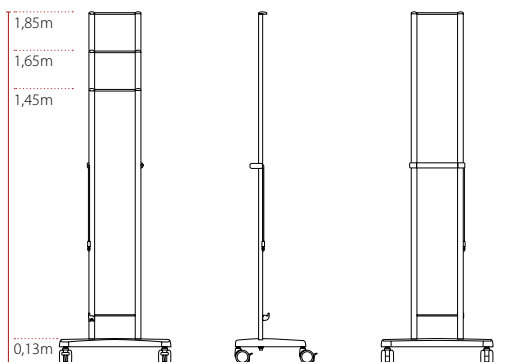

Single trolley for one screen

Accessory used to make folding screens mobile. (up to 15-panels long)

Material: Panel: high-pressure laminate or polycarbonate profiles, Frames: aluminum, wheelbase: rigid steel base with PC/ABS cover, Wheels: polyamide with polyurethane tires.

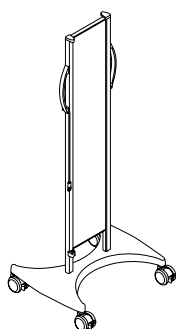

Art. no. 06514, height: 1.45m
Art. no. 06518, height: 1.65m
Art. no. 06520, height: 1.85m

Double trolley for two screens

Accessory used to make two folding screens mobile. (up to 15-panels long)

Material: Panel: high-pressure laminate or polycarbonate profiles, Frames: aluminum, wheelbase: rigid steel base with PC/ABS cover, Wheels: polyamide with polyurethane tires.

Art. no. 06501, height: 1.45m
Art. no. 06503, height: 1.65m
Art. no. 06521, height: 1.85m
