

Isis

Project

Royal Dutch Mint

Location

Houten, Netherlands

Architect

wilma wastiau

Products

Plain & perforated Isis

Coating & colour

Granite silky shine

Building type

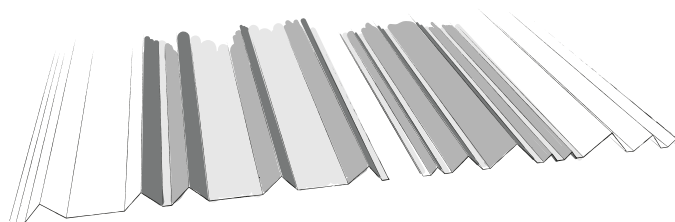

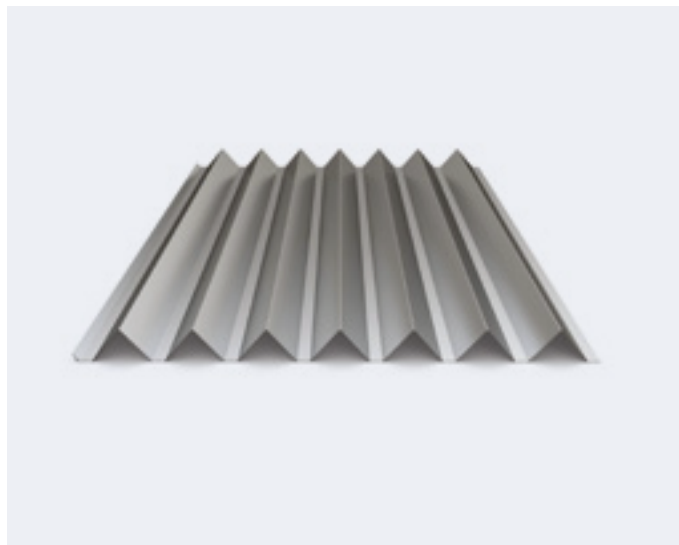

Industrial and logistics

Photographer

© Martijn Kort

*Explore regular or random
wave frequencies*

Triangular waves

Triangular point profiles in an infinite combination of colours, widths, depths and sequences create rigid or random linear patterns for a look that's both contemporary and timeless.

- Regular or random wave depths from 20 – 150 mm
- Oblique waves on request
- Perforated finish on consultation
- Vertical or horizontal installation
- Lengths from 750 to 6,000 mm
- Visible fixings

Technical details

Nominal steel thickness (mm)	0.63 - 0.75
Weight (kg/m ²)	6.86 - 8.56
Working width (mm)	840 - 880
Max. length (mm)	6,000
Min. length (mm)	750
Profiling	Triangular or pyramidal
Mounting	Visible
