## Allgemeine Hinweise

Detaillierte Angaben zum Lieferprogramm finden Sie in unseren technischen Dokumentationen unter [swisspearl.com](https://www.swisspearl.com).

Der eigenständige Materialcharakter der Faserzementplatten ist unter anderem geprägt durch die natürlichen Rohstoffkomponenten. Intensität und Farbton können je nach Produktionsserie nuanciert variieren.

Die gedruckten Farben können vom Originalton abweichen. Für exakte Farbbestimmungen sowie Farbanpassungen komplementärer Bauteile müssen Originalplattenmuster verwendet werden.

**+** **Hochresistente Beschichtung:** Alle Farben von Carat, Nobilis, Planea und Zenor sind auch mit HR-Coating erhältlich. Vintago, Avera und Reflex sind standardmäßig mit einer transparenten HR-Beschichtung ausgestattet. Die Beschichtung ist besonders witterungsbeständig, kratzfest und lässt sich leicht von Schmutz und Graffiti befreien. Sie bietet ein Plus an Schutz und eröffnet damit mehr Möglichkeiten und Raum für architektonische Visionen. Selbst wenn die Umgebung anspruchsvoll ist, ist das Ergebnis eine saubere und langlebige Oberfläche.
